Senator Judith Zaffirini, Fax 512-475-3738

Dear Senators,

I have been made aware that the Texas Medical Association (TMA) opposes the Texas Complementary and Alternative Health Care Services bill, SB 1084, on the basis of “patient safety.”

**Please be very clear: I decide what type of health care I consider safe and choose to access, not the TMA!**  
**It is MY body, not theirs!**

**Physicians trained only in pharmaceutical, surgical and radiological medicine do NOT possess the “education, training and skills” to pass judgment on the safety of my health care choices.**

**As a customer of TMA members, I have contacted them to express my outrage, and have told them I have contacted you.**

**Senators, do the right thing and let the people’s elected officials decide:**

**VOTE SB 1084 TO THE SENATE FLOOR!**

---
